

Parent partnerships

To conduct a good parent/carer relationship with staff you will find each child will have a communication book, which parents/carers can write in to pass on any information and staff will do the same.

At Little Aces we will be encouraging healthy eating and will have a daily menu which will consist of breakfast, drinks, fruit as healthy snacks and lunch.

Overall we hope that both you and your child are happy with your chosen placement, we will try our best to ensure your child receives the highest care in our quality child minding service and to help us do this we will be taking part in refresher childcare courses throughout the year.

If you have any other questions about what we do please don't hesitate to contact me.
